England

Mr. Mark Laurence,

I would like to thank Daco Solutions for their continued partnership with Wayne Trademark. Not only have you supplied us with a quality machine, but the service after the sale has been well above anything I have experienced by a machinery manufacturer.

Although we are separated by thousands of miles we are able to work through each issue by a simple phone call. David has walked us through many problems on the phone avoiding lost production. Most of these problems have been learning curves for us as operators of a new piece of equipment.

David, Mark thank you for your outstanding support and continued partnership with Wayne Trademark and we look forward to a long lasting relationship.

Best regards,

Rodney Trivette

Flexo manager
Wayne Trademark Printing and Packaging
